Mission Statement

"Our primary objective is to ensure the quality education and training of our clients, Public Safety professionals. We are proud of our ability to serve at the highest level of quality, in a timely manner, and at a reasonable price. We strive to develop long-term relationships with our host agencies, and to become true consultants to the Public Safety community. We value creativity, productivity and loyalty, and we encourage independent thinking and teamwork."

"The members of our Instructional Services Team are our strongest and most highly regarded asset. We value them, and they are well compensated for their expertise, commitment and training. We consider ourselves part of a larger Public Safety family, and will treat others as we expect to be treated by others: with care, honesty, dignity and respect."

"We trust and care for one another, and will celebrate our accomplishments as we share our mistakes - as a team. We realize that our combined sense of ethics and a good reputation are the most important qualities we can share with others. We will seek to live balanced lives in our work, love and play. We will seek to point the way toward the future in Public Safety training, as we make friends along the way."
